Resume Summary

Web Developer with a strong foundation in **HTML, CSS, JavaScript, and React**, experienced in creating responsive, user-friendly interfaces using **Bootstrap** and **REST APIs**. Completed multiple personal projects, including **a social media application** and an e-commerce platform, showcasing my ability to deliver functional and engaging web solutions. Passionate about writing clean, efficient code and optimizing user experiences. Eager to leverage my technical skills and creative problem-solving abilities to contribute to innovative web development projects and drive user engagement.

Key Skills

- **Front-End Development**: HTML, CSS, JavaScript, React, Bootstrap, Figma
- **Back-End Development**: REST APIs, Node.js, MongoDB
- **Design Tools**: AutoCAD, Photoshop, Revit
- **Version Control**: Git, GitHub
- **Problem-Solving**: Debugging, code optimization, user experience design
- **Collaboration**: Team coordination, project management, cross-functional communication

EXPERIENCE

Junior BIM Engineer (Building information modeling)
China Civil Engineering Construction Corporation- Macau
November 2022 - July 2024

- **Developed detailed Revit models** for architectural, structural, and MEP (HVAC) components, improving project efficiency by 20% and ensuring accurate representation of design elements.

- **Streamlined collaboration** by coordinating AutoCAD drawings and Photoshop resources, reducing project alignment issues by 15%.

- **Supported senior BIM engineers** in the development and management of BIM models for both commercial and residential projects.

PROJECT   [Porftolio Website](#)

[E-Commerce Platform](#)

- **Developed a fully functional e-commerce platform** that allows users to browse products, add items to their cart, and complete purchases. The platform increased user engagement by 25% and provided a seamless shopping experience.
